with Russell Prue
to any UK mainland address

If you're looking to motivate and inspire your learners with some great C21st ICT, then Live School Radio is exactly what you need. The specially designed Turnkey Solution has everything included to get you started. The software has been written in-house and is so easy to use your learners will be broadcasting within a few minutes. Radio 2.0 is live Internet Radio Broadcasting and it will improve speaking & listening, as well as writing and collaborative skills too.

This is the lowest cost digital School Radio equipment on the market today. You can add extra microphones, ON AIR signs, headphones and a second monitor. Full details at www.AndertonTiger.com/Desktop
